STATEMENT

Kiilto detergents for maintenance cleaning

Kiilto Vieno Unscented
Kiilto Plusclean
Kiilto 10 Universum Unscented
Kiilto Sanitop

are fragrance-free and contain no added solvents. Kiilto Vieno Unscented, Kiilto Plusclean and Kiilto 10 Universum Unscented contain no preservatives. Kiilto Sanitop contains sodium benzoate.

Accredited testing laboratory Eurofins Environment Testing Finland Oy analysed volatile organic compounds, formaldehyde and other aldehydes in detergents.

The methods used are:

EF4050 VOC (volatile organic compounds) 1+2, WATER SAMPLE, HS/GC/MS
EF4025 formaldehyde / aldehydes, LC/MS/MS

Kiilto Vieno Unscented, Kiilto Plusclean and Kiilto 10 Universum Unscented were diluted to their use solution concentration of 0,5 % for the analysis. Kiilto Sanitop was analysed without dilution.

When used for normal maintenance cleaning purposes, the detergents do not exceed the limits defined in "Asumisterveysasetus" released by the Finnish Ministry of Social Affairs and Health or the VOC reference values set for indoor air by the Finnish Institute of Occupational Health.

Research certificates shall be supplied upon request.
